CALL FOR EXPRESSIONS OF INTEREST MG CORPORATION JOINT VENTURE OPPORTUNITIES

MG Corporation calls for expressions of interest from potential joint venture partners to develop agricultural enterprises on its farm lands in the East Kimberley, commencing with Goomig Lots 15 and 16.

Lots 15 and 16 at Goomig are part of the Ord-East Kimberley Expansion Project and are within a broader agricultural area initially developed by the State and now farmed by KAI. The lots were chosen by MG Corporation as a result of their rich soils and have already been partially cleared and developed as part of an agreement between MG Corporation and KAI. Both lots have all environmental and other approvals, a guaranteed water supply, completed farm designs, partial irrigation infrastructure and close proximity to Wyndham Port.

Joint venture proposals which actively incorporate MG personnel, businesses and interests will be considered more favourably than those in which a passive role for MG is envisaged. Given MG Corporation's extensive land portfolio, JV partners are encouraged to consider the potential to work with MG to develop other areas of the East Kimberley and may be given a right of first refusal for other MG land entitlements.

Expressions of interest must be submitted by close of business on Friday 2 November 2018.

MGC BUILDING AND MAINTENANCE CONTINUING SUCCESS

MGCBM continues to power along with housing construction, with six new houses underway.

The company's participation in the North West Aboriginal Housing Fund project is proving formidable, with houses being constructed on schedule and on budget and providing wonderful training and apprenticeship opportunities for local Aboriginal people. MGCBM's third-year apprentices, Brendan Nelson and Corbin Dryden, have stepped-up their training and completed the wall frames and truss roofing on their own at MGCBM's duplex site on Cajuput Street. No better way to learn than to give it a go on your own—well done guys!

In August, MGCBM staff attended the Clontarf Academy employment forum at Kununurra District High School. General Manager, Brad Durack, said "There are some great young MG guys coming through the Clontarf Academy, next year is looking great to employ some more local apprentices via the program".

JAWUN SECONDEES

MG Corporation is proud to be working in partnership with the Jawun program and recently welcomed two secondees to the organisation.

Michelle Marinovic worked predominantly with MGC Building and Maintenance on media issues including advertising, website improvement and public relations.

Michelle came to Kununurra from Geelong in Victoria, where she works for the National Disability Insurance Agency delivering the National Disability Insurance Scheme.

Donna Heathcote worked with MG Corporation on the 100+ Jobs program, assisting in the design and preparation of appropriate project documents in readiness for the program's implementation phase.

Michelle came to Kununurra from Woodside in Perth where she works as a contracts specialist.
